# OUR SCHOOL

## About Us

Ivybrook International Academy is a Purpose-driven private school located in a serene and secure estate on RD road off Okporo Road, Rumuodara, Port Harcourt. The school is operated as a day school and currently admits into Junior Secondary 1 and 2 classes.

## Our Vision

Our vision is to be an institution that equips its graduates with Entrepreneurial Skills required for excellence in the 21st Century.

## Our Mission

Our Mission is to support our students through various programs to embrace Entrepreneurial Skills such that they confidently become part of their own learning, development and success in life.

## Our Motto

Our Motto is *Aspire, Study, Achieve*. Here at Ivybrook we build the character of students to take charge of their success by understanding the concept of goal setting, and what they need to do to succeed. This influences their overall strength in character as they appreciate the relationship between choices, actions, and outcomes.

## Our Curriculum

Through our trained and equipped staff, we offer a hybrid curriculum, a blend of Nigerian and international Curriculum. We support our teens to not only succeed academically but also distinguish themselves through character and good choices.

# WHAT WE DO.

## SPEAKING SKILLS

We coach our students to speak appropriately and confidently through academic presentations, collaborative activities that strengthen the student's ability to engage, express, share and interact effectively. Communication is a key element of social development.

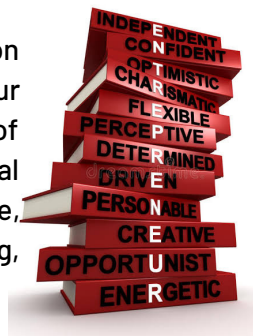

## READING & SELF STUDY CULTURE

Inculcating a reading habit in every child is a goal we promote from early years through senior classes. Our robust library supports the reading appetite of growing children who need to also stay motivated. We also have learning strategies that promote independence in children so that they can study on their own, focusing on their learning goals.

## ENTREPRENEURIAL SKILLS

We not only offer entrepreneurship education with a focus on entrepreneurial skills, we have also carefully infused into our program, activities that support the development of entrepreneurial skills which have proven to be vital to survival and excellence in the 21st century. We promote confidence, creativity and innovation, collaboration, goal-setting, determination and flexibility among others.

## IT SKILLS

Starting from our Nursery Classes we introduce the use of computer to our children. At the primary level they learn to research and find the data they need. They also learn to present and share information using the computer. At the secondary level we teach the children how to use the computer for more problem solving, data research, sharing and to foster creativity.

## STEM +ARTS= STEAM ORIENTED

Knowing the importance of science as a subject and the essence of raising students to think and approach things scientifically, we strive to provide activity-based learning to promote Science Technology Engineering, Arts & Mathematics in our classes. These include science practicals, research, robotics, coding, basic ICT practicals, field trips etc.

Our International Curriculum promotes entrepreneurial skills,  
success in International examinations and provides  
advanced preparation for University  
admission examinations.
